

SAFETY POLICY STATEMENT

At Dempsey Construction, safety is everyone's responsibility. Through teamwork and vigilance, we can ensure that safe working becomes an integral part of our company's culture. Our commitment to creating a safe working environment extends beyond our employees to our clients, vendors, and anyone else working on our projects. While it's nice to claim we have a great safety record and low mod rate, the most important thing is that every person, on every one of our projects, goes home safely every day.

A handwritten signature in blue ink, appearing to read "J. Dempsey", is written over a horizontal line.

John Dempsey
President
